

**TRINITY TECHNOLOGIES**

## WHO WE ARE...

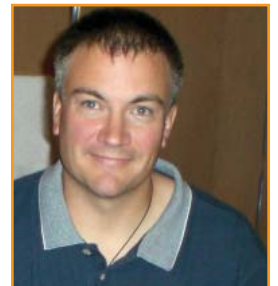

- We are an established service provider, with thousands of successfully completed wireless communication sites under our belt.
- We are a complete turnkey vendor with the ability to exceed your expectations.
- We bring a “can-do” attitude to each jobsite.
- We go above and beyond. We manage every construction detail and recruit great teams for your project.

## OUR MANAGEMENT TEAM...

### **Peter Buchanan • President**

The founder of Trinity Technologies, Mr. Buchanan brings over a decade of construction leadership to each project. His integrity and relentless commitment to customer satisfaction are the the company’s guiding values. Mr. Buchanan holds over 60 electrical contracting licenses.

## WHY TRINITY?

- We view obstacles as opportunities.
- We have great leadership. It is Mr. Buchanan's quest for excellence that is our "driving force".
- Our "top-down" approach is geared so that you, our customer, view the project as completed AND successful.

## OUR SERVICES... WE UNDERSTAND WHAT IT TAKES TO MAKE YOUR PROJECT A SUCCESS

### DESIGN SERVICES

We present you with construction options to build your sites faster. Our goal is to optimize your resources, building more sites for less money. A thorough understanding of your construction schedule translates to better site design and layout.

### CASE STUDY #1 LOU VON FIELD

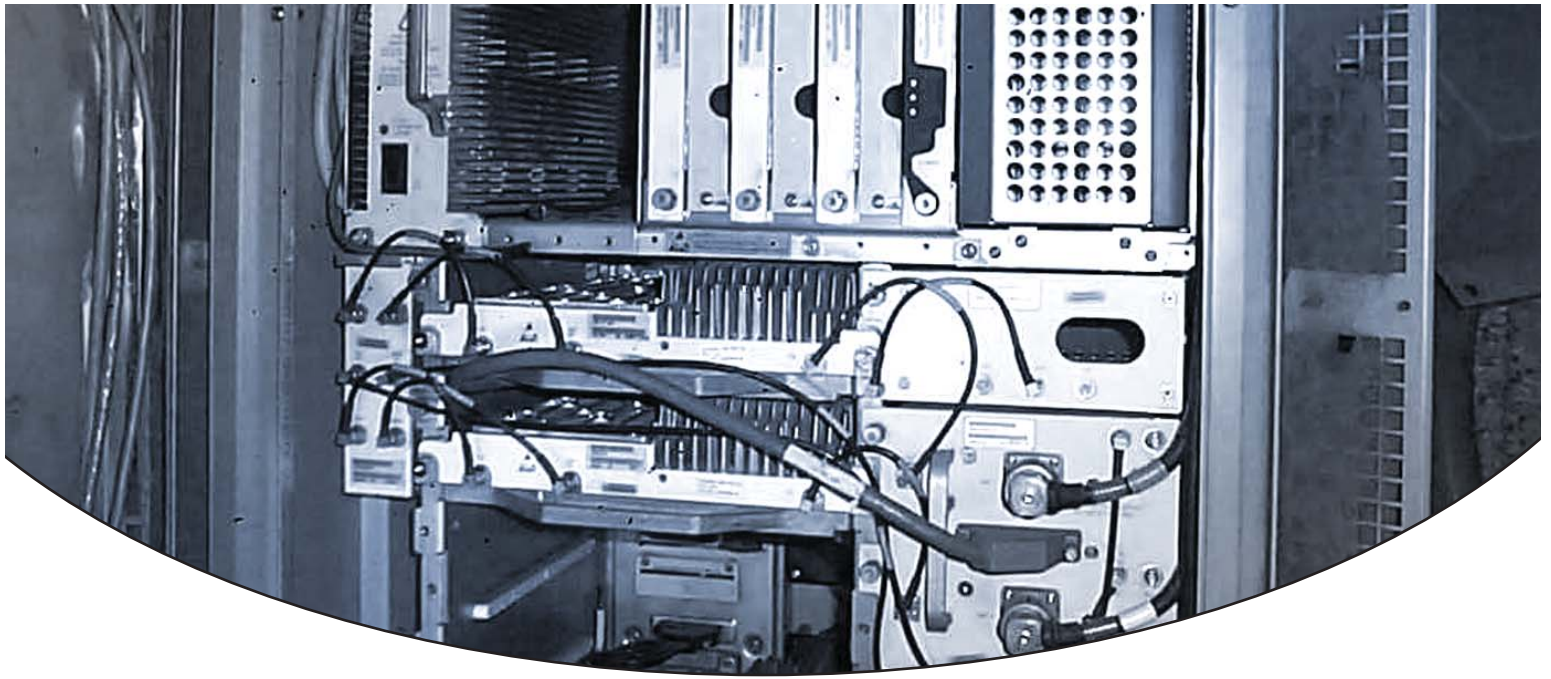

#### The challenge:

The project was over budget and behind schedule. The Utility Company demarcation point on blueprint was unclear and they waited months to bring power.

#### Our solution:

We re-designed service to bring the project back to budget. We worked regardless of weather conditions to complete the project on time.

## SITE ACQUISITION...

- We believe every neighborhood has different site acquisition needs.
- We are proficient and thorough in site acquisition and lease amendments.
- Let us know your objectives and we will formulate a plan to turn your current problem into your most recent expansion.

## LICENSING AND PERMITS...

- We are experts in anticipating building and zoning department requirements.
- Our knowledgeable staff can get paperwork expedited so your project can get off the ground.

## CONSTRUCTION SERVICES...

We plan the construction requirements of each site to build your project:

- on schedule
- on budget
- right the first time

## CASE STUDY #2 SPRINT/NEXTEL POWER HARDENING

### The challenge:

To get in, get the job done right, and get out quickly and with minimum disruption.

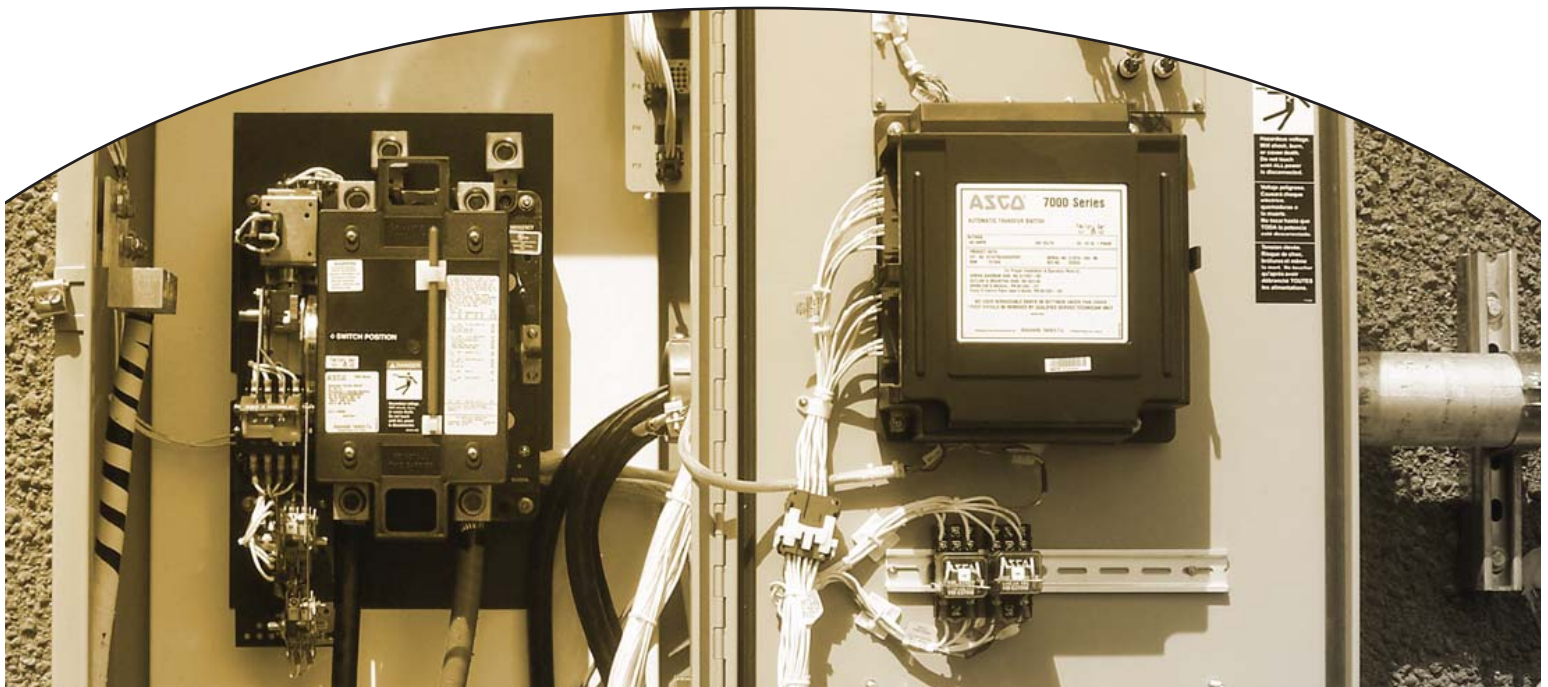

### Our solution:

We coordinated inspections and deliveries to reduce the impact on the jobsite and the landlord.

## PROJECT MANAGEMENT...

- Our project managers know the status of your jobs at all times. Daily communication and weekly reporting keep you informed.
- Close out packages are timely and delivered in the format you require.

## Case Study #3 Knoxville UMTS Project

### The challenge:

Perform upgrades during limited maintenance windows.

### Our solution:

Proper planning, daily status updates, and timely closeout documents helped our customer close the job quickly.

## EMERGENCY SERVICES...

- We tailor our Emergency Response Plans to meet your needs.
- Our response teams are created and maintained according to your requirements.

## GENERATOR DEPLOYMENT...

- We work with you to reduce down time by strategically planning the location of generators.
- We analyze battery capacity to maximize backup time.
- We study your generator needs to determine the best long-term power solution.
